Profile

Motivated Computer Science Engineering graduate with a strong foundation in Core Java, Object-Oriented Programming, Spring Boot, Hibernate, REST APIs, JDBC, SQL, and Backend Development. Hands-on experience developing scalable Java applications through internships, academic projects, and a live industry project. Passionate about writing clean, maintainable code, solving complex problems, and working in Agile software development environments. Seeking an opportunity as an Associate Software Engineer to contribute to innovative software solutions while continuously expanding technical expertise.

SKILLS

Programming Languages: Core Java, Object-Oriented Programming (OOP).
Java Technologies: Collections Framework, Exception Handling, Multithreading (Basic).
Frameworks: Spring Boot, Spring Data JPA, Hibernate.
Backend Development: REST APIs, CRUD Operations, Layered Architecture (Controller-Service-Repository).
Databases: MySQL, SQL.
Frontend: HTML, CSS.
Testing & Tools: Postman, JUnit (Basic), IntelliJ IDEA, Eclipse,VS Code.
Version Control: Git, GitHub.
Software Development: Debugging, Clean Code Practices.
Soft Skills: Analytical Thinking, Problem Solving, Communication.

INTERNSHIP

Techneat Info Solutions

Java Development Trainee — October - 2025 - Present

- Developing backend applications using **Core Java**, **Spring Boot**, **JDBC**, and **Object-Oriented Programming (OOP)** principles.
- Building and maintaining RESTful APIs for backend services.
- Working with **MySQL** databases for data storage, retrieval, and query optimization.
- Developing features using **Spring Data JPA** and **Hibernate**.
- Debugging and troubleshooting application issues to improve performance and reliability.
- Writing clean, modular, and maintainable code following coding standards.
- Testing REST APIs using **Postman** and participating in code reviews.
- Using **Git** for version control and collaborating in an **Agile** development environment.
- Contributing to the **Employee Timesheet Management System**, implementing CRUD operations and backend business logic.
- Preparing technical documentation and continuously learning new Java technologies and best practices.

Techvolt Software Pvt Ltd

Frontend Development Intern — July - 2024 - September - 2024

- Worked on frontend web development fundamentals.
- Collaborated in a team development environment.
- Understood software development lifecycle basics.

PROJECTS

LIVE PROJECT June 2026 - July 2026

Java | Spring Boot | Hibernate | Spring Data JPA | MySQL | REST APIs | Git

- Developed a live Employee Timesheet Management System for recording and managing employee work hours.
- Designed and implemented RESTful APIs for timesheet creation, update, approval, and retrieval.
- Built the application using Spring Boot with a layered architecture (Controller, Service, Repository).
- Integrated MySQL using Spring Data JPA and Hibernate for efficient database operations.
- Implemented CRUD functionality with input validation and exception handling.
- Tested REST APIs using Postman.
- Maintained clean, modular, and reusable code following software engineering best practices.
- Used Git for version control and collaborated in an Agile development environment.
- Prepared technical documentation for APIs and workflows.

EDUCATION

Amrita College of Engineering and Technology

Bachelor of Engineering – Computer Science and Engineering - 7.88 2022 - 2026

Duthie Higher Secondary School for Girls

Higher Secondary - 67% 2021 - 2022

CERTIFICATE

- Career Development Webinar – Elewayte
- Chess competitions participant (analytical thinking & strategy skills)
- Problem Solving**:** Active LeetCode practice
